

Campus Internships for FUTURE Program Participants

An internship is a form of experiential learning that integrates a PhD scholar's academic and research experience with practical application and skills development in a professional setting. Internships allow PhD scholars to gain valuable applied experience and make connections in professional fields they are considering for career paths, and give employers the opportunity to guide and evaluate talent. Internships may vary from 4-40 hours per week, are paid or unpaid and typically range from 10-12 weeks during the summer or throughout the academic year.

If you are interested in hosting a graduate student or postdoc intern from the FUTURE program, please provide the following internship details:

- Background about the host office (role and responsibilities)
- Location of the internship
- Overview of the internship – activities the intern will participate in, tasks that the intern will perform, learning that will occur
- Details of the internship: paid or unpaid; hours per week (4-40); duration (one quarter, 6 months, etc.); start date/quarter
- Qualifications Required: graduate student or postdoc; specific skills, knowledge
- Contact person for more information

Host Information
Office/Unit:
Location:
Contact Person for Internship (name, title, email, phone number):
Supervisor for Internship (name, title, email, phone number):
What does your office do (main responsibilities/role):
Internship Information
Location:
What work will the intern perform? Describe the primary responsibilities and tasks of the role.
