PREPARING TO TEACH AND ADVISE BIOMEDICAL GRAD STUDENTS AND POSTDOCS AROUND CAREER AND PROFESSIONAL DEVELOPMENT: A TRAIN-THE-TRAINERS EVENT

The NIH Office of Intramural Training & Education, in collaboration with the AAMC GREAT group, is hosting the second “Train-the-Trainers” event for advisors, staff and faculty who provide career and professional development programming and guidance to graduate students and postdoctoral researchers in the biomedical sciences.

AAMC Innovations in Research and Research Education Award
Reflections

“I think it’s to their credit to be as visionary as they were and recognizing the need for these kind of discussions and the need to collaborate and bring in the partners that were involved in funding… I think GREAT has been phenomenal, and I can’t say enough to capture what I think of as the importance of it to the enterprise”
-Walter Schaffer, PhD, Former NIH Research Training Officer

“I think GREAT has had a huge impact in shaping recognition of all the different kinds of things you can do with a PhD”
-Rick McGee, PhD, Past GREAT Group Chair

“You go to a meeting and suddenly learn that this problem that has been keeping you up at night at your school is a problem that five other schools have and, if you’re lucky, two other schools had and feel they’ve solved…It’s kind of like calling up your best friend”
-Naomi Rosenberg, PhD, Past GREAT Group Chair
